# ASB Club Advisor Philosophy

The school district philosophy adheres to the belief that student involvement in activities outside the regular curricular program is an integral part of a complete educational program. Student participation in these programs adds to the student educational experience and enhances the overall educational process. Extra-curricular opportunities are designed to enrich classroom learning by providing activities which allow students to experience first-hand situations. Club activities encourage student participation through teamwork and social interaction. Planning, problem solving and goal setting are some of the skills learned through the club experience.

Advising student activities requires time and effort. In the case of an ASB Club Advisor, time and effort are essential if the Club is to operate for the benefit of its members, the school and the community. Students should be encouraged to participate fully in all phases of club activities – from planning to record keeping – however, they cannot be expected to manage their Clubs and activities without advisor supervision. Students must be apprised of correct ASB procedures and advisors must carefully monitor students' use of these processes. Advisors are to provide direction, counseling and guidance in the supervision of these extra-curricular activities. They should also be able to administer and implement district policies and procedures in a manner which protects the welfare of our students.

The process for starting a new Club is fairly simple, but can take a few months. According to law, the Club must be Cultural, Athletic, Recreational, or Social in nature. Although it is acceptable to be related to the curriculum, no Club may be used to earn funds for a class or for curriculum. Furthermore, no activities of a Club may be graded for earning credit in a class. A Club must be optional and non-graded.
